Have total 3 years of experience as Software Test Engineer at Wells Fargo, Bangalore with working experience on Functional testing (Agile scrum) and VB Script – UFT automation tool along with SQL Server and Oracle developer testing.

PROFESSIONAL SUMMARY:

- Very good knowledge on Software Development Life Cycle (SDLC), Software Testing Life Cycle (STLC), Defect Life Cycle (DLC) and Agile methodology (Scrum).
 - Expert in Test Scenarios and Test Cases development and also good at maintaining test coverage.
 - Have good working experience in Automation testing, Functional testing Integration testing, Smoke testing, Regression Testing, Ad-hoc Testing, Exploratory Testing, GUI and Database testing.
 - Good knowledge in working with SQL queries on Joins and grouping functions..
 - Have good working experience with VB Script functions, File System Objects and also debugging the code.
 - Involved in preparation of test data, RTM, Object Repository based test script and also Descriptive Programming test scripts also involved in execution of those test scripts.
 - Have very good working knowledge on Object Repository, Synchronization, Error Handling, Parameterizing, AOM, Batch Running and Object identification.
 - Good working experience on Keyword driven and Hybrid framework development and implementation.
 - Involved in logging defect into HP ALM, and generating reports on a daily basis from ALM, reporting to the Client and also have good working knowledge on JIRA and LASSI tool.
 - Very good at team co-ordination and collaboration.
 - Have working experience with 3190Z Hand Held device (RFID) testing.
-

ACADEMIC QUALIFICATION:

- ❖ Completed BE in Computer Science from Ghousia College of Engineering (GCE), Ramanagaram in 2014 with 65%.
- ❖ Did PUC and Schooling from Karnataka Board with 66% and 73% respectively.

SOFTWARE SKILLS:

Operating Systems / Environment	: Windows (7.0/10)
Software Languages	: Core Java, VB Script
Databases	: SQL Server, Oracle Developer.
Testing Tools	: HP ALM, OBIEE, SSRS, JIRA, Confluence and LASSI
Automation Tools	: UFT

PROJECT DETAILS:

Project Name: TCAM (Sales Force)

Client: Wells Fargo.

Start Date: October 2017 to till date

Testing Tool used: HP ALM, LASSI, SQL Server, Sales Force.

Role & Team Size: Functional with DB tester, Team Member-20.

DESCRIPTION: TCAM (Tax Credit and Asset Management) is a division of Wells Fargo whole sale banking. Wells Fargo group is responsible for Asset Management servicing of LIHTC (Low Income Affordable Housing Tax Credit) Investments within community lending investment. It mainly deals with Assets management, benefits and also reporting.

RESPONSIBILITIES:

- Analysis of requirement document and development / modification of test cases based on the requirement changes..
- Performing test execution of UI, Functional, Integration and Regression test cases, preparing Defect/Issue document and provide daily status update to Test Lead.
- Performing data validation by writing the Query and updating the existing queries.
- Worked with the HP ALM tool to upload the test cases, test execution results, Logging Defects and also updating the retest results.
- Have working experience with LASSI (Lifecycle Application Salesforce Systems and Integration).Received rewards for the excellent work done in this 4 months.

Project Name: D2C RFID

Client: MACY's, USA.

Start Date: March 2015 to October .2017

Testing Tool used: HP ALM, JIRA, Confluence, Remote Desktop Server, SQL Server, Oracle and HP UFT.

Role & Team Size: Manual and Automation Tester with Data Base, Team Member-26.

DESCRIPTION: The main objective of the D2C RFID is to perform the different scans (BTF – Back To Front, TUT – Tag Up Tool and CC - Cycle Count) by using 3190Z - Hand Held device in the required

Macys or Bloomingdales stores, based on the requirement and verifying the data flow between the RFID device and all the RFID reports and Applications and also with data base.

RFID mainly works with 2 applications (DVN Manager and SP Manager) and 8 reports (Balancing and Control, Associate Productivity, All In One report, TUT report, TrueVUE (Tyco), Display Audit Report, Back To Front report and BTF application) .

RESPONSIBILITIES:

- Analysis of requirement document and development of test scenarios and test cases (UI, Functional, Integration, System and Data Base) based on analysis done and also involved in peer review.
- Performing UI, Functional, Integration and Regression testing by executing both manual and automation test scripts , preparing Defect/Issue document and provide daily status update to Test Lead.
- Validate data with the data base (SQL server, Oracle) as per scenarios, writing the Query and updating the existing queries.
- Modifying the Test Scenarios and Test Cases/Test Scripts based on the newly added customer requirement or RC's.
- Involved in the uploading test case to HP ALM, exporting test case from HP ALM, updating testing status (Pass/Fail/Blocked) based on the test execution results. Logging new Defects/Retest the defect and updating retest status in the HP ALM.
- Have working experience with JIRA (defect management tool) by adding Tasks for requirement clarifications and also raising some of the issues as Bug.
- Involved in the preparation of test data, OR based test scripts and DP scripts and also execution of those scripts.
- Worked on Keyword driven methodology and also hybrid frameworks (Keyword driven, Data driven and Modular).
- Task allocation, resource planning, preparing Daily Status Report (DSR) and updating Weekly Status Report (WSR) to onshore in the absence of Test Lead.

AWARDS AND ACHIEVEMENTS:

- Got gold medal by participating in 7th International Level Science Talent Examination by taking 4th rank in district level.
- Received math's excellence award by attending math's talent examination.
- Received certification from client for the excellent work done for TCAM Project for 4 months.

CERTIFICATION:

Got certification on “**Software testing**” from “**Q-spiders**”, Software testing training institute for the training got on Manual testing, SQL (Oracle developer), Core Java and Agile methodology.

PERSONAL DETAILS:

Name : Priyadarshini B.S

Nationality : Indian

Father's name : Mr. Somashekar

Mother's name : Mrs. Gangamma B.S

Husband name : Mr. Arun Kumar B.N
